Dave Rackham

Vice President, Software at Torus

WHO WE ARE

We build smart, secure modular systems that store energy and smooths out peak demand, so infrastructure keeps running without compromise.

Ticaboo, Utah

Ticaboo

Ticaboo, Utah is a remote, off-grid town near Lake Powell. With no transmission line for ninety miles, the town runs on diesel generators. Torus is installing a solar-paired Torus Station on-site to provide Ticaboo reliable, affordable power without a grid connection.

Woodward Park City

Woodward Park City

Woodward Park City is a year-round action sports facility near Park City, Utah, owned and operated by POWDR. It offers indoor and outdoor training in skiing, snowboarding, skateboarding, BMX, and mountain biking, along with camps for kids and teens. The facility experiences seasonal demand peaks due to snow making operations during colder months.
